At YUN we embrace the idea of balance. Here, we share content, experiences, interviews and tips to encourage you to live a balanced lifestyle. Let us widen your vision with intriguing content and exciting events.

Why YUN?

At YUN we believe buying glasses should be simple, which is why all of our frames and lenses are offered at an all-inclusive price.

Starting from just €119, our frames are produced in-house by talented designers who work hard to satisfy all kinds of glasses wearers. This method of vertical integration means that the quality is kept high and the price stays low.

In the spirit of keeping things simple, we've made it possible for you to choose, try on and get your glasses in 20 minutes. Our in-store automatic edging machine uses state-of-the-art technology to produce glasses in a matter of minutes, so you can watch your glasses be cut and make it back in time before lunch is over.

1. Browse

Explore our unique yet timeless collection of frames in store. Try them on for size to see which suits you best and if you're stuck, just ask our friendly opticians for advice.

Depending on your lifestyle and what you need the glasses for, our staff can point you in the right direction.

2. Choose

Once you've picked the perfect pair for you, let our opticians know. It's a good idea to double check with our staff that your prescription would fit the frames you want!

3. Take an eye test

You'll receive a booking number for your eye test, after this is called, our opticians will measure your eyesight and provide you with your prescription. This usually takes around 10 minutes, but for more complex prescriptions, we will need around one hour to take a more meticulous test.

4. Check out

Once the eye test is complete and you've made your purchase, you'll receive a pick up ticket. Keep this handy! This is where you wait but not for long, our in store automated cutting machine can produce glasses in no time at all.

5. Pick up your new glasses!

In just 20 minutes your new frames will be ready! Simply show your pick up ticket to our opticians to receive your shiny new specs. Make sure to try them on for size so our helpful opticians can fit them perfectly to your face, they'll carefully bend the temples to ensure maximum comfort.

In-store production

At YUN, you don't have to wait weeks for fresh frames, we will have your new glasses ready in no time.

Using state-of-the-art technology, your glasses can be produced with your unique prescription in just 20 minutes. The fully automated lens finishing system consists of 12,000 different lens blanks, meaning almost all prescriptions are covered- we've got you!

Free eye test

We offer eye tests in store with trained, friendly opticians. When you buy a pair of YUN frames, the price of the eye test is deducted from your purchase.
